

SAVE OUR SKIN

When you think of what your skin has to put up with, it's no wonder it needs a little help now and then. Specially formulated by dermatologists, Epaderm is a combined 3-in-1 skin emollient, bath additive and soap alternative that uses clinically proven ingredients to deeply moisturise and soften your skin. With no fragrances, additives, colourings or preservatives, Epaderm works simply and safely, helping to soothe and save our skin.
